**SUPPLEMENTARY INFORMATION:** The FEIS/GMP analyzes three alternatives for management, use, and with special concern for the historic character, structures, and landscape. The alternatives were formulated to address problems and management concerns related to the future operation of the LBJ Ranch district following Mrs. Johnson's passing, as well as concerns related to visitor use, resource management, and facility development.

Alternative 1, the no action alternative, is a continuation of the present management course, maintaining historic structures but not upgrading interpretation or increasing staff. Alternative 2, reflects a modest increase in the level of park maintenance, interpretation, and administration with limited visitation of the Texas White House, some additional staffing, and expanded educational outreach into the local community. Alternative 3, the National Park Service's proposed action, envisions a comprehensive change to the overall visitor experience with the Texas White House open on a regularly scheduled basis, increased educational outreach, new facilities for visitor contact, maintenance, ranching, and park interpretive staff, and a new emphasis on the Johnson City unit.

The FEIS/GMP in particular evaluates the environmental consequences of the proposed action and the other alternatives on archeological and historic resources, soils, water resources and water quality, floodplains, economy and social environment, and visitor use/experience and interpretation.

**FOR FURTHER INFORMATION:** Contact Superintendent, Lyndon B. Johnson National Historical Park, at the above address and telephone number.

Dated: May 5, 1999.
